

## Fair Lady

*The lotus flower as a creative muse*

Small and delicate, this new Emile Chouriet ladies' watch, twenty-nine millimetres in diameter, is fitted with an original metal bracelet. It symbolises femininity and elegance.

On its sleek and symbolic dial, textured lotus petals unfurl like origami. Tremendous graphic prowess and a charming interpretation of a universal and spiritual flower. On the dial, the bracelet fasteners and the crown, this interpretation of the lotus flower highlights and gives life to the curves of Emile Chouriet watches.

This beautiful jewellery watch comes in two versions; one has a quartz movement and other a mechanical movement, both totally adapted to feminine delicacy and elegance. This watch is designed for women of all ages who seek harmony and refinement.
