

## Horse of Success

*The symbol of success and strength*

The horse symbolises success and strength. In 2014, Emile Chouriet presents its second watch decorated with a sign from the Chinese calendar - the "Horse of Success."

The style of the watch consists of a simple unadorned and understated design, as embodied by the life of a wild horse.

The horse is in 18k pink gold carved in relief at the centre of the white and grey dial. The watch case reveals the hallmarks of the brand, the double horns. The Emile Chouriet "Horse of Success", fitted with an automatic movement, is produced in a limited edition of only 99 pieces.

The Emile Chouriet "Horse of Success" symbolises good luck and a taste for success.
